UKWP

VISION

Providing a strategic vision for the development and growth of the UK water industry.

THE UK WATER PARTNERSHIP

UKWP

VALUE

Value Statement.

The UK Water Partnership membership consists of a broad range of organisations including academia, private sector companies, research institutes, and public bodies.

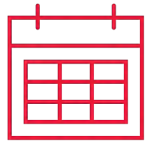

Members have a unique position to influence and better coordinate work being done across the water sector as well as directly address challenges.

They can gain exposure and influence, collaboration opportunities, and access to information across public, private, and academic sectors.

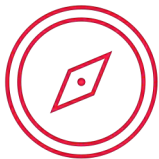

What we provide

A space to:

Annual meetings and a summit, committing to collaboration and innovation

UK and international visibility & chances to participate in overseas commercial missions

Develop and enhance capability by collaborating on water sector projects

Engage in networking and events across industry and with influential bodies

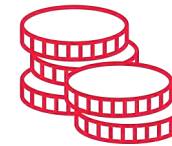

Part of a collective voice delivering key reports to government and stakeholders

Create workstreams for long term collaborative projects across member organisations

Work, funding, and partnership opportunities on key bids and research

An impartial not-for-profit space working across all types of organisations

How can the
UKWP help...

Academia

- Members from across the water cycle meaning better **understanding** of challenges and needs
- Support for sharing and **raising awareness** of topics important
- Opportunities to **collaborate with and influence** private companies and other members
- **Gather information** from inside the industry to focus your academic endeavours
- **Impact industry** policy through sharing of white papers
- Shape and participate in unique projects that **address emerging challenges**

How can the
UKWP help...

Private Companies

- **Access to expertise**, different perspectives, and innovation to help **inform business decisions**
- Opportunity to create industry knowledge assets such as white papers that **increase brand awareness**
- Access to contacts that can support your business and **boost its capabilities**
- Connect with research **innovation partners**
- **Members from across the water cycle** meaning better understanding from end-to-end
- **Thought leadership** and industry networking opportunities

How can the
UKWP help...

Research Institutes

- **Access to knowledge** and **expertise** to guide decision making for funding and investment
- **Influence on the sector** and its policies for the betterment of the UK
- **Gather championship and collaborators** for research projects across the water sector
- Avoid duplications and **collaborate smartly** so you can move further, faster.
- Discover **emerging sector challenges** early
- An **impartial** not-for-profit space

How can the
UKWP help...

Public Bodies

- **Achieve change** in the sector and inform policy decisions through connection with research innovation partners
- An impartial not-for-profit space to **share ideas and discuss strategy**
- Access to **expertise**, different **perspectives**, and **innovation** to help inform decisions

- An **impartial** not-for-profit space
- Members from across the UK and public and private sectors
- Ability to tap into **practitioner expertise, real world experience and thought leadership**

QUOTES

MEMBERS

What Our Members Say:

Through involvement in UKWP we have gained greater access to organisations and people in the water sector, bringing in diversity of thinking to support and promote the development of our work assessing the public value of water.

Through association with UKWP and its members, our work on public value of water attracts credibility, which in turn facilitates further opportunities to develop the work.

GAVIN STONARD

Business Development Director
- Water - Costain

The UKWP provides a critical connection across the water sector to seek out, stimulate and champion best practice, whilst advocating the role water plays in our lives, economy and the just transition to net zero society

PROF ANDREW TYLER

Scotland Hydro Nation Chair

In a world where the need for sustainable solutions is more pressing than ever, the UK Water Partnership's dedication to fostering innovation, knowledge exchange, and cross-sectoral cooperation is truly commendable.

Aiimi proudly stands with the Partnership in its mission to safeguard water resources for current and future generations, and we look forward to contributing our expertise and capabilities towards this shared goal.

STEVE SALVIN

Chief Executive, Aiimi
